MANDEVILLE HOUSE
ASSISTED LIVING

Senior Assisted Living

A better Alternative in Long term Care

Assisted Living with a personal touch

Plenty of Space

Each resident has a private or semi-private bedroom. Entrances are wide enough for walkers and wheelchairs. Common spaces indoors and outdoors are accessible and shared.

Homestyle Meals

It just wouldn't be home without home cooking. We prepare three meals a day and offer nutritious snacks. We accommodate any special dietary needs.

Caring For Your Loved One...

Making a family care decision can be arduous due to the complexities of finding the best care in the most comfortable environment at an affordable cost for our loved ones as they grow older.

Mandeville House is Unique...

Its comfortable atmosphere offers an alternative in long-term care transition by integrating a family home with assisted living and providing individualized personal care

Customized Care

We understand that everyone has different needs and requires different levels of assistance. The care we provide is tailored to your needs.

Serving the
Southern Maryland
senior community
since 2001.

Mandeville House

Assisted Living

Our Mission:

To provide loving, safe and personal care services to seniors in an assisted living home environment. To encourage independence, treat residents with respect and afford them the dignity they deserve.
